

Connecting to a Mobile Device

IMPORT → MOBILE

Connecting using Smart View or Screen Mirroring

- 1 Drag down the top bar on the mobile device screen to start Smart View or Screen Mirroring.
 - 2 Select this product from the list of devices displayed on the screen.
 - The initial device name is **[FLIP] Samsung WMR Series**.
-  You can control the mobile device from the product screen.
 -  HDCP (High-bandwidth Digital Content Protection) contents will not show on the screen if **PIP Capture** is set to **On**.

Connecting using NFC tagging

-  This feature is only available when the product is equipped with a tray (optional purchase).
-  This function is supported only on Android 8.0 Oreo version or later of Samsung mobile devices.
-  In writing mode, an NFC tagging can automatically perform Smart View or Screen Mirroring on your mobile device.

- 1 Turn on the NFC feature on a supported mobile device.
 - 2 Tag the mobile device to the NFC pad.
-  You can control the mobile device from the product screen.

Connecting to a PC

IMPORT → PC

HDMI 3 is available when the product is equipped with a tray (optional purchase).

Connecting using a cable

1 Connect the product to the PC using an HDMI cable.

HDCP contents will not show on the screen if PIP Capture is set to On.

2 Select **IMPORT → PC → HDMI** from the top of the screen.

3 To control the PC from the product screen, connect the supplied USB cable to the **TOUCH OUT** port on the product.

If used in a multi-screen setup, make sure you have configured FLIP as the main display.

Connecting via the WiFi Display function

This function is only available for the PC that support the WiFi Display function.

1 Select **Action Center** or **Devices** in the taskbar notification area of the PC.

2 Click **Connect** or **Project** and select a [Flip] Samsung WMR Series device to complete the connection.

The connection procedure may vary depending on the PC.

After the WiFi Display connection is made, you can control the PC screen from the product screen.

This function is only supported by Windows 10.

Importing from a USB Device

IMPORT → USB

Connect an external HDD or a USB storage device.

 Import images, native FLIP files (.iwb), and documents.

Importing from a Network Drive

IMPORT → NETWORK DRIVE

Connect the network drive to bring files.

 You can register a network drive while the network is connected.

For information about how to connect to a network, see '[Connecting to a network](#)'.

 You can register a network drive account at  → **SETTINGS** → **Connect** → **Advanced Settings** → **Network Drive** → **Add Account**.

To register a network drive account, you must enter the **Address**, **Username**, and **Password**.

To register your network drive account, refer to '[Add Account](#)' for **Network Drive**.

 Import images, native FLIP files (.iwb), and documents.
